Control Center. Proper use, storage and disposal
is the responsibility of the user.

Manufactured by

KEEP OUT OF REACH OF CHILDREN

Net Weight 7.26kg (16 lbs.)

INSTRUCTIONS

Use sparingly - add to nutrient
solution, a little at a time, then test
pH. Repeat application, then test,
until desired pH is achieved.

The quantity necessary for pH
adjustment will vary depending on
the strength of the nutrient and the
purity of the water used to mix
nutrient.

This product raises nutrient pH.
Recommended pH for most plants is
5.5 to 6.5.

Use General Hydroponics pH Test
Indicator for testing nutrient pH.
